

786 Sparkling White Wine Brut

Alcohol 11.5% by volume

TA 0.65 grams per 100 ml

RS 2.8 grams per 100 ml

Harvest Information

The grapes for our white sparkler are harvested from select vineyards throughout California. They are picked early, when the bright acidity is perfect for sparkling wine, gently pressed, and fermented in stainless steel to preserve the fresh fruit flavors. After the base wine is dry, the dosage is added and the second fermentation takes place under pressure, creating the bubbles which make this wine so captivating.

Tasting Notes

This is a delicate, fruit-forward sparkling wine, which is versatile enough for any occasion. Bright aromas of ripe apple give way to luscious notes of white peach on the palate. It's fine mousse (bubbles) lifts the fruit character and makes the wine a delightful and refreshing addition to any light cuisine.
